## **PERSONAL DETAILS**

First name: **Ananth**  
Second Name: **S.**  
Date of Birth: **28th Feb 1975.**

## **EDUCATIONAL QUALIFICATION**

- \* B.Sc.(Computer Science), Studied in S.T.Hindu College Nagercoil 1992- 1995 Manonmaniam Sundarnar University, Tamil Nadu.
- \* Currently doing MCA from Madurai Kamaraj University (Final year)

## **Technical Training**

- \* Higher Diploma in Software Engineering (HDSE) through Aptech, 1996-1998

## **EXPERIENCE SUMMARY**

**Total years of experience in IT** :5 years  
**Years of experience in the particular technology/language** :24 months of training experience in VB, ASP, COM/DCOM, MS - SQL Server, XML. 24 Months of rich experience in Analyzing / Developing / Technical Support and specialized area being Microsoft Software & tools.

5 + years of experience in Software Development including 24 months of training experience in VB, ASP, COM/DCOM, MS - SQL Server, XML. \* Handled Corporate Batches and Training in Updated Technologies. Developing Business Applications using Client / Server 3- Tier Architecture. Developing Web Applications

## **TECHNICAL SKILLS**

<b>RDBMS</b>	:	Oracle 8.0, MS SQL Server 7.0 & MS Access
<b>Front End</b>	:	Developer 2000, VB6.0
<b>E-Commerce / Web Server</b>	:	IIS, Visual Interdev, ASP
<b>Environment</b>	:	Windows 98, Windows NT & Unix
<b>Languages</b>	:	VB,C, C++, XML
<b>Hardware</b>	:	Pentium.

## WORK EXPERIENCE

### Project Details (Offshore)

- 1. Project** : CPC (Coporate Product Configurator )  
**Client** : Dresser Rand , U.S.A  
**Description** : Abstract & Description: The CPC (Corporate Product Configurator) involves configuring the characteristics that caters to need for the Compressor. A Customized / Optimum Design could be obtained through a streamlined configuration of the subsystems. CPC accepts all the sub systems information required for one Contract.  
This system will generate BOM (Bill Of Material) for each contract and generate reports in Word and Excel.
- I currently involved in the following Modules (Sub Systems).  
\* Cylinder Lube System  
\* Shell And Tube Cooler  
\* Fin Fan Cooler for Recip Separable and Turbo  
\* Separator  
\* Eutectic System  
\* Process Gas -Recip Separable  
\* Surge Control
- Role** : Design and Development  
**Position** : Senior Programmer  
**Software Used** : Visual Basic 6.0,MSAccess 97,SQL Server 7.0, Crystal Reports 7.0, ActiveX Control, ADO
- 2. Project** : Infinite Invoicer  
**Client** : Infinite Technologies Corporation.  
**Description** : This system has mainly 9 modules.  
\* Invoice  
\* Delivery Challan  
\* Quotation  
\* Sales Analysis  
\* Customer Address Book  
\* BackUp / Restore Address Book  
\* BackUp / Restore Applications  
\* Consolidation of Companies  
\* Query Engine  
This system has multi-company support with Users in each company having different access privileges. Analysis of Sales for a given time frame is shown graphically using Crystal Reports, which can be further classified geographically based on Customers or can be based on Item Groupings. Export and Consolidation are the added advantages in this project.
- Role** : Design and Development  
**Position** : Senior Programmer  
**Software Used** : Visual Basic 6.0,MSAccess 97,SQL Server 7.0, Crystal Reports 7.0, ActiveX Control, ADO

<b>3. Project</b>	:	Power Office
<b>Client</b>	:	Evergreen Hardware Stores, Bangalore
<b>Description</b>	:	This Project was broadly classified into 5 modules * Sales * Purchase * Analysis * Warehouse * Administration Each module is further classified into submodules.
		 This is a Client-Server system, which gives Business Solutions to Evergreen Hardware Stores. They are mainly into large scale trading business in both India and abroad. This system will provide complete solutions to our Client including features for the user to analyze reports depending on their requirements. The user will be able to retrieve the information using any complicated queries.
<b>Role</b>	:	Design and Development
<b>Position</b>	:	Senior Programmer
<b>Software Used</b>	:	Visual Basic 6.0, SQL Server 7.0, Crystal Reports 7.0, ActiveX Control, Windows API
<b>4. Project</b>	:	Enigma
<b>Client</b>	:	R&D, Infinite Technologies Corporation
<b>Description</b>	:	This Project Is mainly for hiding the Important Files from the System. It has the two User Interface Like Word pad and Explorer for Creating Documents and Monitoring the Hidden Files.
<b>Role</b>	:	Design, Development, Testing
<b>Position</b>	:	Senior Programmer
<b>Software Used</b>	:	VB6.0, Windows 98
<b>5. Project</b>	:	PowerShield
<b>Client</b>	:	R&D, Infinite Technologies Corporation
<b>Description</b>	:	This application is totally oriented with uninterrupted Power Supply (UPS).It validates the battery charges and UPS backup duration and depending upon that the server will force the client systems to be shut downed. Before shutting down the systems, all the applications kept open will be automatically saved.
<b>Role</b>	:	Design, Development, Testing
<b>Position</b>	:	Senior Programmer
<b>Software Used</b>	:	VB6.0, Windows 98

**6. Project** : Investment Portfolia  
**Client** : R&D, Infinite Technologies Corporation  
**Description** : This Project Contains the following Module.

- \* Creating and Maintaining Portfolia
- \* Purchasing And Selling Shares and Bonds
- \* LIC
- \* Debenture
- \* FD and RD

This Project helps to analyze the different investments and generates different types of Graphical representation , representing Profit and loss. It generates a Reminder List which will remind you the payment terms.

**Role** : Design, Development, Testing  
**Position** : Senior Programmer  
**Software Used** : VB6.0, Windows 98, MS-Access

**7. Project** : Automated Book Store  
**Client** : Padma Book store

**Description** : This Project Contains the following Module.

- \* Creating and Maintain Customer and Supplier Information
- \* Processing GRN and purchase order
- \* Billing and Inventory 4.Maintaining Item details.

This project generates different types of reports for sales and purchase. It has printing facility for GRN ,Invoice and Billing.

**Role** : Design, Development, Testing  
**Position** : Senior Programmer  
**Software Used** : VB6.0, Windows 98, MS-Access

- 
- 8. Project** : Payroll System  
**Client** : Rajeshwari Textiles
- Description** : This Payroll System Project, My contribution is mainly for 5 Modules namely.
- \* Employee Details
  - \* Salary Details
  - \* Leave Details
  - \* Leave Balance
  - \* Leave Form
- This package was developed to calculate salary and Overtime Amount. This package covers all the reports about the Employee, Leave Details and Payslip Reports.
- Role** : Design, Development, Testing  
**Position** : Senior Programmer  
**Software Used** : VB6.0, Windows 98, MS-Access, SQL Server
- 9. Project** : Automation Stock Maintenance System
- Client** : Mahalingam & Co
- Description** : In this Automation Stock Maintenance System Project. My contribution is mainly for 4 Modules namely
- \* Inventory Management System
  - \* Installment Management System
  - \* Account Management System
  - \* Sales & Purchase Accounting System
  - \* Price Management System
  - \* Installment Management System
  - \* Finally it generates different type of reports like Monitoring the Stock details about the different items. And it Generates Sales Bill for Customer List, daybook Ledger, Trial Balance, Profit & Loss and Price List.
- Role** : Design, Development, Testing  
**Position** : Senior Programmer  
**Software Used** : Oracle 7.3, VB6.0, Windows 98, MS-Access
